

Jodi Phillips

Jodi Phillips produces works of art, inspired by mood and created with passion, heavily textured or totally smooth, with a rich metallic touch. Works are available as originals (from stock or commission), hand embellished limited edition giclée prints and open edition prints, on paper, canvas, silk and ceramic. Jodi studied graphic design at Watford College and worked in graphics for 12 years. In 1997 she began to explore the freedom of expression in abstract painting. Since then Jodi has established as an artist in both the trade and public fine art market, as well as working with companies to increase knowledge of modern day giclée printing. All originals and prints are created by Jodi Phillips in her studio, to the best of her ability and using best quality materials. Giclée reproduction prints are produced in house with the latest digital printing equipment, lightfast inks and the finest quality papers and canvas.
