

The Indispensable Business Accessory

The Whiteboard - a wonderful invention. Easels and Flipcharts - fantastic. Only one problem really - what do you do when there isn't one and you need to make an impressive presentation at short notice? They're not exactly portable, are they? The solution is **Folio Contact**.

It's magic!

Folio Contact is a simply magical invention. Best description? A roll of portable whiteboards. Sounds heavy, bulky, curious? Not when you realise that **Folio Contact** is made from **statically charged** polypropylene film. Simply tear off a sheet (naturally it's perforated), smooth it onto any surface and that's it! Instant whiteboard, flipchart, planner. No tape, no tack, no nothing!

It's got an excellent write-on surface with good dry wipe properties. High quality marker pens work particularly well. And once you've made your presentation, or increased the power of your sales pitch by writing up all of your client's concerns and removing them one by one, you simply peel it off and take it away.

It's universal!

Folio Contact has universal appeal: sales presentations, marketing meetings, training programmes, even accounting seminars will all be enhanced by a product that offers the ability to think on the move, to react quickly to changing market conditions or customer needs and to make visible their thoughts and ideas in any business environment.

It's portable!

The packaging is world class. It's light, it's strong, it's got clever little holes that even let you mount it on any standard easel. It's got a cut out feature that lets you attach a shoulder strap for those long journeys. It's got a tear-off edge that allows you to remove a sheet quickly, precisely and easily.

Each sheet is 60cm wide and 80cm long with 25 sheets on a roll. (Other sizes and formats available on request.)

It's versatile!

Folio Contact is available with a printed grid or plain background, and in a variety of colours. You can even have your own company logo, contact details and re-order code printed on it! So as well as being a sales accessory, it's a marketing device as well.

Your customers are going to love it.

FOLIO CONTACT. Simply i magic!
